

**Seminar within the framework of
UNEP IWRM 2005 Programme-
accelerating the process**

The IWRM 2005 Roadmap and action plans

Dr. Palle Lindgaard-Jørgensen

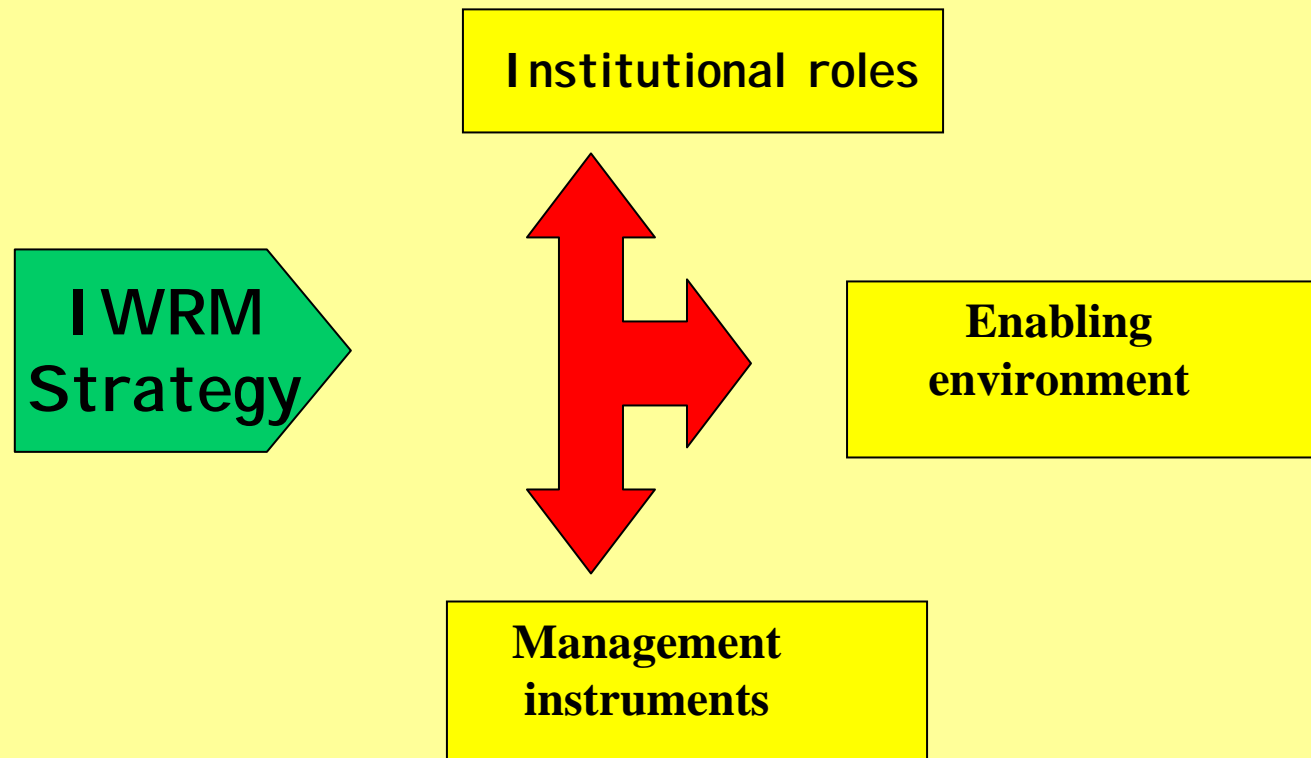

Regional programme coordinator, UCC Water

WHAT ARE "IWRM PLANS"?

A strategy for change ..

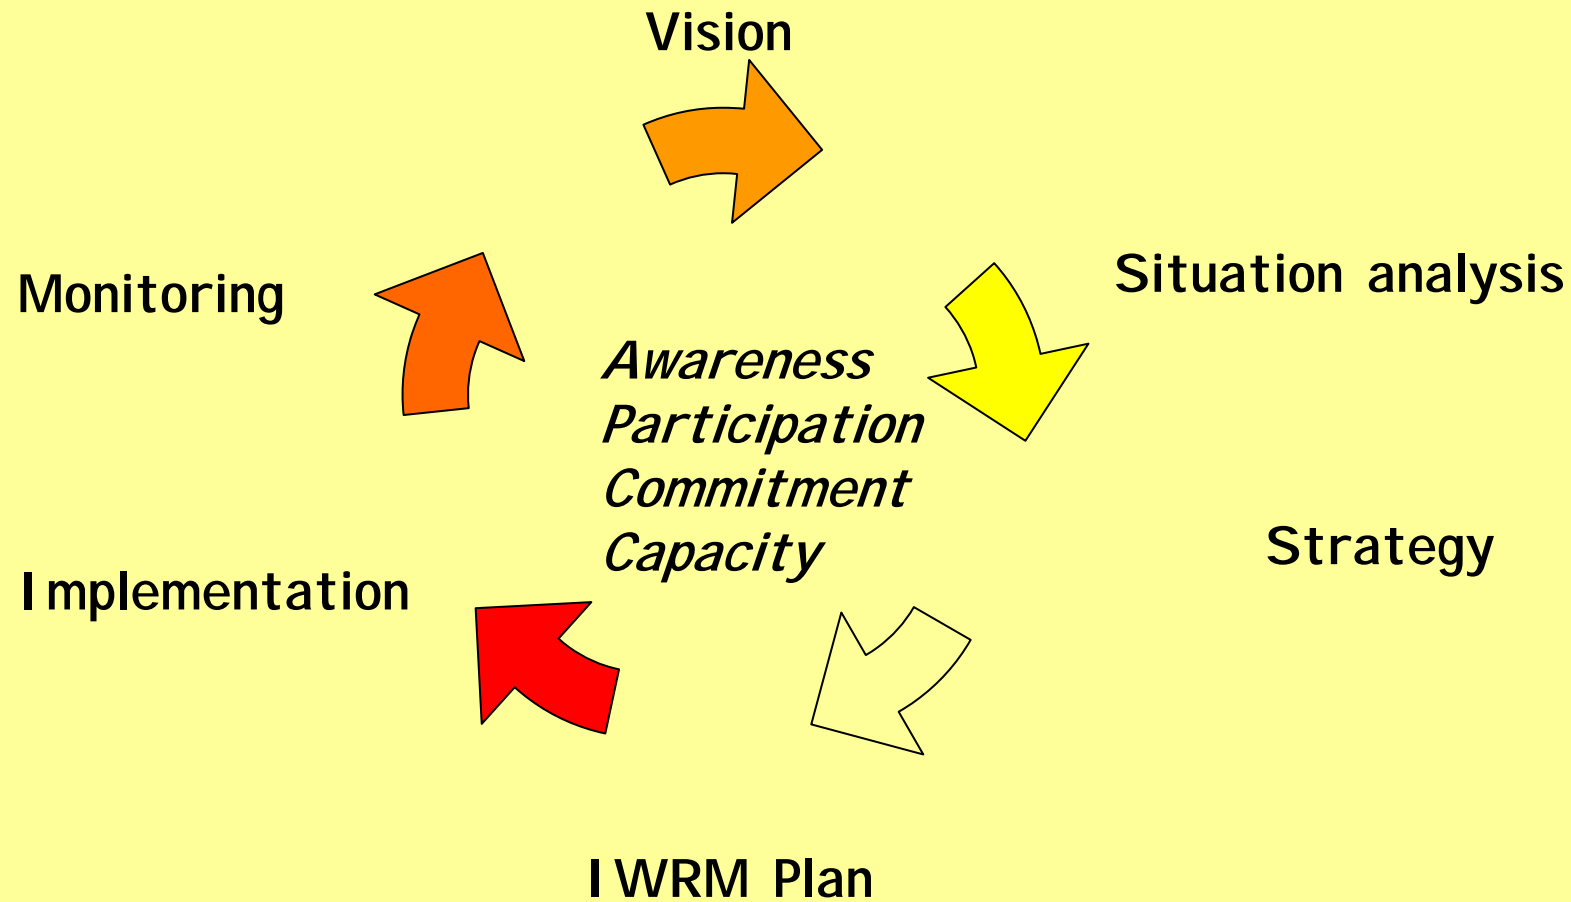

A plan (the "IWRM Plan") for the strategy

including...

- *both* development (infrastructure) and management
 - *both* resource management and service delivery
- and
- "water efficiency" as an integral element

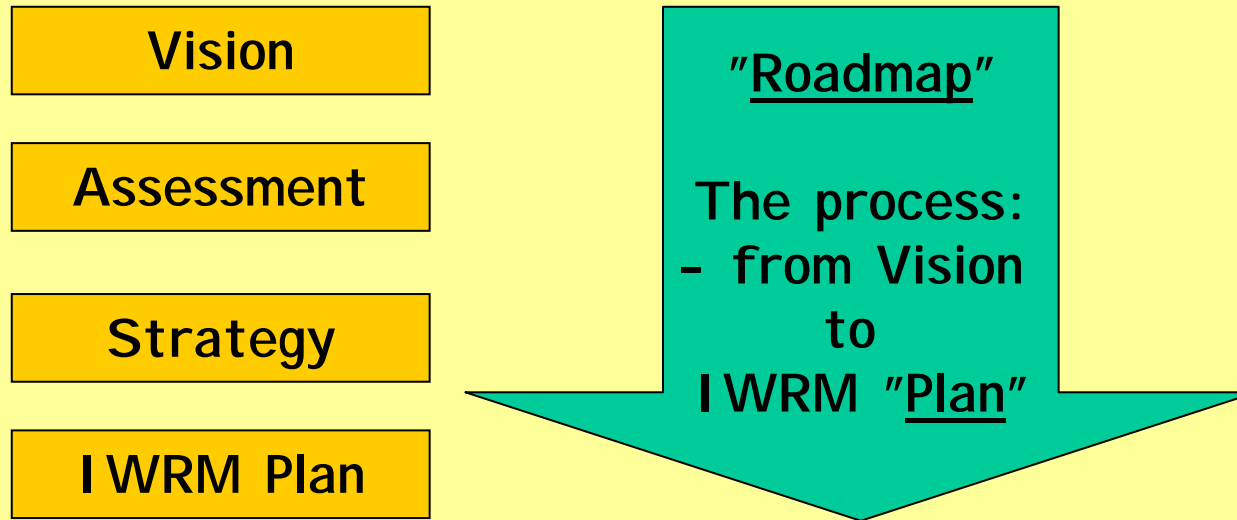

I WRM planning: A cyclic process!

THE ROADMAP

Roadmap: Plan for the process

Roadmap: Analyses of the important steps

- Vision stage?
- Situation analysis?
- Policy and strategy development?
- IWRM plan?

Roadmaps and action plans- how they were developed

- Two Regional seminars
- Two national seminars on issues, solutions, roadmaps and action lists
- Regional Capacity building on IWRM and roadmaps
- Developed through a consultative process
- Approved by competent authorities

Roadmap and action plan- issues assessed

- Legislative and political environment for staged transition to IWRM
- Managerial capacity building
- Technical and technological measures

Roadmap

What actions needs to be taken?

More detailed problem assessment?

Awareness raising through workshops/TA?

- Political, managerial, stakeholder levels

Targeted capacity building to these levels?

Resource mobilisation?

- Local and external

Technical assistance?

Roadmaps and action plans

- Short term actions (2007-2008)
- Mid term (2007-2012)
- Long term (2007-2025)

Action plans

- Objectives
- Rationale
- Approach
- Realisation time
- Responsible executors
- Expected results
- Necessary resources (national and international)

Action Plans

- Some actions have been foreseen to be funded by the national budget
- Others require international assistance like the IWRM Plans
- The project descriptions in the action plans need further development to be real project descriptions

Thank you
